

WALL WORKSHOP

Exploratory Workshop

# What is 'Healthy' Water? Interdisciplinary Perspectives on Water Security

*Open to the Public*

**Wednesday**  
**January 29, 2014**  
**5:00 pm - 6:30 pm**

**Conference Room**  
**Peter Wall Institute for**  
**Advanced Studies**  
**6331 Crescent Road**

**Workshop Organizers**

Dr. Karen Bakker  
Co-Director, Program on Water Governance  
Professor, University of British Columbia

Dr. Leila Harris  
Co-Director, Program on Water Governance  
Associate Professor, University of  
British Columbia

[www.watergovernance.ca](http://www.watergovernance.ca)

**Brett Finlay**, Peter Wall Institute; Michael Smith  
Laboratories; Dept. Microbiology & Immunology, UBC

**David Groenfeldt**, Water-Culture Institute, University of  
New Mexico

**Lalita Bharadwaj**, Public Health, University of  
Saskatchewan

Discussant:

**Margaret Catley-Carlson**, Global Water Partnership

Multiple threats to water security are raising concern about the sustainability of water supplies -- both locally and globally. This session brings together scholars with three distinct perspectives, from the sciences (Biochemistry and Molecular Biology), medicine (Public Health), and the humanities (Anthropology). Panelists will debate our shifting understandings of water, health, and disease, placing British Columbia issues in global perspective.
